Inight to supply the daily increasing wants of the Badger and other fields.

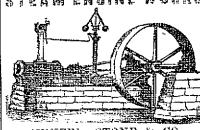

In order the better to do this, the proprietors have creed at a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planting of Shating Machine, three Lathes, and a Machine for making botts, and are now putting in a deam Engine of the more power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blackamithing business. They nover were in a better position for thing pusiness, and iry, Machine, Engine and Insections business, and INFER'Y COPIPE'S L'AON

in any department. In regard to the character of the work got up by this The Oldest Establishment in the State the Proprietors refer to that in successful operation through the country at their best recommendation, as it can speak for itself. All they can say is, that they are both Patern OLL MEGRARICS, and know how werk should be done as well as the next man.

They continue to manufacture FLOUR and HAW MILL GEARING, and STEAM ENGINES, on the most approved GEARING, and STEAM EAGURES, on the time's principle,
They have siray; on hand a large stock of BRASS
WORKS, such as GUAGE AND CHIMMER COME, OH, OUTS AND

Milwaukee & Beloit Railroad. We take pleasure in publishing to-day the brief, but plain, comprehensive and satisfactory Report of HORATIO HILL, Esq., President of the Milwaukee & Beloit R. R. Co., on the progress and present condition of the important enterprise at the head of which he is. We think that the wisdom of the step taken by the managers of the enterprise in placing him, Mr. Hill, in his present post, is fully vindicated by his report; and it is but proper to add that the Directors throughout have "pulled together"-to use an expressive phrase—in a manner which is not phways seen in Boards of railroad directors; and the re sult is seen in the present flattering condition

of the enterprise. We learn that at the late meeting of the Board, the vacancy caused by the resignation of Mr. MEACHEM, of Troy, was filled by the election of LESTER SEXTON, Esq., of this city, one of our oldest and most substantial merchants.

The Milwaukee & Beloit Railroad is becoming " a fixed fact," as last as a thorough-going Board of Managers, the best feeling on the part of the people along the line, a favorable contract with wide awake business men, and the busy hands of several hundred sturdy laborers, can make it so. No railroad enterprise this State has commenced under more favorable auspices, and none, we believe, has accomplished more so early in its history. It deserves a larger subscription to its stock in our city, and but for the great tightness of monetary affairs in the past year, would doubtless have it; but, as it is, our merchants and capitalists must see their way to sure profit, we think, in liberal subscriptions to the enterprise. A glance at the map is the best of arguments to those who know the country, through which this and the connecting roads pass, leading to the Mississippi. It must pour a tide of business into Milwaukee: beyond the calculations of the most

We understand that the location of the Pas "the Report. senger Depot grounds is in the 5th Ward, in Blocks 57, 62 and 65, and of the Freight Depot of the space necessary for an extensive business.

We learn also that Mr. J. D. RETMERT has reeigned, and that George D. Douenan of this city has been chosen a Director in his place; a capital selection, and one that will add strength and anduence to the Company. The Board of Directors is now as follows:

Horatio Hill, President. H. B. MEDBURT. LESIER SEXTON. GEORGE D. DOUBMAN. W J. WHALING. SEWELL ANDRES, of Mukwonago. A. B. BARNES, of Delayan. Es. ELDEREIN, of E khorn.

Indge Howe's Position. Among the distinguished names before the Republican party from which the next U. S. Senator will probably be chosen, is that of Judge Howe, of Green Bay. The Free Democrat says that it has learned, by a late conversation with that gentleman, something of his opinions in relation to the issue made some time since between our State Supreme Court and the Federal Judici-

ary. That paper says: He (Judge H.) holds, with Judge Miller, that He (Judge H.) holds, with Judge Müler, that the State Courts have no power to issic a written of Habeas Corfus to take a citizen, however wronged or oppressed, out of the hands of the Federal Courts, and that the only redress for citizens thus wronged and oppressed, is to appeal from one Federal Court to another—from the U. S. District, to the U. S. Circuit, and U. S. Suppress Courts. In short, he denies the doctrine S. District, to the U. S. Circuit, and U. S. Supreme Courts. In short, he donies the doctrine of State Bights, and the authority of the State Judiciary to protect the lives and liberties of our citizens, from: Federal usurpation and out-

And on this question the Fond du Lac Com monwealth says:

. We are assured by men who know, tha when the Republican members of the Legislature nominated a candidate for the Supreme Judge ship at the time Orsamus Cole came before the people, Judge Howe was passed by solely on the ground of his views in that respect. Had he not held such views, he would have been the nominee instead of Mr. Cole. Per contra, the Madison Journal cays;

In this connection, we wish to correct some other false impressions that have found their way into the press. As we are quite gratuitously set down as favoring. A newspaper discussion of akem beforehand cur, in our judgment, do no good.

JUDICIAL ELIGIBILITY,-We respectfully de cline entering into any controversy with our friends of the Racine Advocate on this subject. They are interested for Judge Document as candidate for U. S. Senator, while we are not interested against him.

When we cited the clause in our Constitution in relation to the subject, we expressed a very decided opinion that it was intended to cut off the Judges in this state from being candidates for other offices during the terms for which they were elected; and we hold to the same opinion well! We hold Judge Doellette's talents, and elequence, and strength of character, in as high regard as do our friends of the Advocate; but cannot change our views of the Constitution at that account.

"Future Prospects" Such is the title of a modest pamphlet just

vinted, the matter of which has been prepared by ALFRED BRUNSON, Esq., and adopted at a ecting of the citizens of Prairie du Chien a few weeks since. It is designed to call the attention of emigrants and capitalists to the advantages offered them at that place, the western terinus of the Milwaukee & Mississippi R. R., at he junction of the Wisconsin and Mississippi rivers. The beautiful site of the town, the adrantages which it presents for business and as a residence, and its present condition, are briefly, though with sufficient fullness, alluded to.

From the pamphlet we learn that Prairie Chien has now about 8,000 inhabitants, I steam flouring mill, 1 steam saw mill, 3 lumber yards, 5 brick yards, 4 lime kilns, and several atone quarries. A large quantity of brick are being made, ready for spring operations. There are 3 church edifices, 1 in course of rection, and two other places of worship; a

Day Book, an ardent supporter of Mr. Buchanan, has had its sensibilities sadly outraged by those members of Congress who voted against the revival of the slave trade. After publishing Mr.

Ethridge's resolution, it says: "We publish it for the especial benefit of our southern friends, and at the time, solemnly ask them how we are to make head against this atrocious crusade against the South, when they themselves not only andror traitors in their midst, not actually honor them with seats in the national Legislature! The mover of this infamous solution," &c.

In the same strain it proceeds to speak of the Slave trade in general. We quote:

Coming events have, in the opinion of your Directors, warranted them in crowding the year 1857 with labors of magnitude. The Milwaukee and Detroit railroad is fast extending itself to

that cars shall be unloaded tree of expense on arrival, whether by day or night, thereby ena-bling your road to compete with any other rail-road in the transportation of grain to this mar-ket, or to other markets south of killwaukee on the western shore of Lake Michigan.

The subscriptions to the Capital stock of this Company, at present amount to \$31,410. This does not include \$30,000 subscribed by the convactors, neither does it include the Delayan sub-

scriptions. Books were opened in that town, and \$51,000 was promptly subscribed. Eclibble pledges are made by prominent citizens of Pelevan that \$100,000 private subscriptions shall be furnished to this Company, as well as \$50,000 of the corporate bonds of that town. The city council of Milwaukee promptly responded to our application for aid, and unanimously voced to loan \$100,000 of the bonds of the city to aid in the construction of your read.

A glance at the map will show you that the continuation of the last-named road from Savanna through Freeport. Beloit and Delayan, would make an almost air-line road to Milwaukee, and distant by the line of track 138 miles.

Nothwithstanding the energy and singleness of purpose with which the several Railroads terminating in Milwaukee, have been pushed towards completion, the growing importance of the city as a commercial centre, together with the superiority of her harbor over all others upon the western shore of Lake Michigan, made the want of an additional road which should bring her into direct communication with the rich and productive districts of the South-West felt among her business community. Nor was this want less felt by the farming interests of thet portion of Southern Wiscossin and Northern lines through which such road would naturally pass, in seeking the most convenient access to the waters of the Mississippi.

It requires no spirit of prophecy to predict an immense flow of traffic and travel, through the

your road, and the important reads of address, office rent, &c., can be met from the carnings. All of these items go to increase materially the cost of a road that is long in process of construction. HORATIO HILL, President.

"THE ALEANY."-By this name is now and and henceforth known the large brick building just com-pleted, on the S. W. corner of Main and Michigan streets, by Mesars Mirchaelt and Ospan, at an expense of about \$55,000, and altogether the most complete edifice for its perposes yet erected in our city. DILLEXBERG is the ar-

hilest, Southwall the carpenter, Alles the mason, and chilest, sournessel, the compenser, among the harms the painter.

The building is 120 ft. on Michigan by 80 ft. on Main, of brick above the basement, with an iron front to the let story on the former street. It is substantially built and handsomely furnished throughout. The roof is of state, the gutters of copper, and the cornice of bricknt and lat story are for stores, a banking o estrange of offices in the city-and the third story (25 R. high) is the finest public Hall in the West,

ways leading from each street. This Hall is 120 ft. by 60, and is calculated to seat comfortably over 1500 persons. It is greatly admired for its fine proportions by all who have seen it. Those who have been fortunate enough to secure places in this fine building are moving into it, and we notice

REAVE the pleasure to say that Mr. W. Daniel,
Professor of Masic, has been a resident of this city for
many years, he has borne an unexceptionable character
for integrity; I have been acquainted with him nearly
the whole term of his residence here, and know that his
talent, science and proficency in Music are of a very
high order. I have had the better opportunity of forming
tals opinion from his having sught in my family some
years, wherein he testified his superior ability as a teacher, by the excraordinary advancement of his pupils, in
the hi, hest grade of the art. T. G. BLAIR,
